

LISA SCHRIJVERS

Empowers *by* creating *structure*

Lisa stands for Leadership, Initiative, Structure, and Action-oriented. I am optimistic and always looking for opportunities and improvements in everything I encounter. I have an eye for detail, and I can be very critical but at the same time flexible when needed. I get very excited when I can initiate, create, engage with people and connect them. By being able to be who I am, I appreciate the impact I have on my surroundings and projects.

More about me on my: [Website](#) / [Linkedin](#)
